

Good and gracious God,

We believe that the world you created is good and that even when we face difficult times, as we do these days, we continue trusting in your providential love.

During this pandemic, our minds and hearts are all over the place with concern, fear, and worry. Help us remember that, as a nation and as individuals, we have been through difficult times before and trust the lessons we learned - that we are all "in this together," we are all vulnerable, and we all need each other.

We ask you to help us to find practical ways to put that faith into action, as we navigate the days and weeks ahead.

Amen.
